

Combatting Elder Abuse, Neglect, and Exploitation: A COMMUNITY DISCUSSION

STAKEHOLDER SESSIONS

We are inviting representatives from government, law enforcement, senior service providers and coordinators, health care, financial services, and others to explain their roles, responsibilities, and resources—and help figure out how we can work together to further fight elder abuse, neglect, and exploitation.

More details and schedule will be distributed at our opening meeting on June 27th at 8:30 a.m.

Elder abuse is a significant and growing problem in our community

Montgomery County's Coalition Against Abuse, Neglect, and Exploitation (CAANE) wants to learn from, and share information with, other stakeholders about its nature, extent, effects, causes, & solutions.

To do this, we are hosting a series of stakeholder sessions between June and November 2018 to:

- Share information about the problem
- Better understand who's doing what
- Discuss what strategies may work best
- Learn how we can team up more
