MONTGOMERY COUNTY TO CONSOLIDATE BUILDING REGULATIONS OPERATIONS

Technology to help streamline permitting processes online

Dayton, Ohio (December 8, 2015) – As part of Montgomery County Building Regulations' efforts to responsibly provide services to its customers, we are reassigning our satellite office staff to duties at our Main Office. Montgomery County Building Services will discontinue Satellite Office service in Washington Township, effective February 26, 2016. All future services will be available in the County Administration Building, 451 West Third Street, 10th floor in downtown Dayton.

Our satellite office coordinator, Joe Mangan, will continue to be available to discuss residential permit submittal requirements with customers at the main office by phone or email. In addition, he will focus on an initiative to improve our quality assurance program, and be instrumental in implementing a new electronic plan review program to streamline permitting processes.

Mr. Mangan can be contacted at 937-225-5038, or manganj@mcohio.org.

For more information, you may contact Chief Building Official Maury Wyckoff at 937-225-4586, or Community & Economic Development Director Erik Collins at 937-225-4642.
