

Major Positive Incident

Northview Preschool Fundraiser Aids Local Food Pantries

The “Loose Change for Change” fundraiser organized by staff at Northview concluded this week raising \$605.48 in cash along with additional food contributions. Four of the participating classrooms went on a field trip to a local grocery store November 11th and used the money to purchase food for the Northmont Fish and Vandalia Food Banks. The collection jar locations included Northview, Elizabeth Place and the Richey Center.

The project gave children the experience of using a “shopping list” and the opportunity to do something to help community members.

The children counted and sorted the coins teaching them to identify the penny, nickel, dime and quarter, and to recognize that coins have different values. The shopping experience also enabled the children to identify foods and match products to those on their shopping lists.

Special thanks to Northview Staff members Sue Doring and Karen Klagge for spear heading this wonderful initiative.
