

# RV REGISTRATION

## Septage Receiving Facility

Montgomery County Water Services  
1850 Spaulding Road Dayton, Ohio 45432

<b>DATE</b>	<b>TIME</b>	<b>LICENCE PLATE</b>
		State:                      Number:

All users of the Septage Receiving Facility (SRF) must complete a registration form for each use. NOTE: all activities at the SRF are being televised and recorded for the safety of all concerned.

**Complete Name of Generator** \_\_\_\_\_

**Address** \_\_\_\_\_

**City, State, Zip** \_\_\_\_\_

**Telephone** ( \_\_\_\_\_ ) \_\_\_\_\_

The materials acceptable for discharge at the SRF are generally:

- a) Septage pumped from residential homes.
- b) Dirty water from carpet cleaners.
- c) Wastewater pumped from portable toilets.
- d) Dirty water from recreational vehicles (RVs).

Please indicate the waste sources in your RV:

**Food prep sink**     **Shower**     **Toilet**

No other wastes than those normally found in a typical RV drain are allowed.

Estimated size of holding tank \_\_\_\_\_ **gallons**

The undersigned does certify to the accuracy of the source and type of the hauled wastewater identified above.

**Vehicle Operator Signature** \_\_\_\_\_

After discharging their load, drivers shall use the hydrant and hose provided to carefully flush any spills, tire dirt, and debris into the appropriate drain. Any manhole with slotted grates is the best place for such flushing water. Drivers may also hose off their vehicles so long as they are not causing a backup of other SRF users in the driveway. The hydrant water is non potable and not intended for human consumption.
