

Water Security

Montgomery County Water Services has established the Water Services Response Team (WSRT) to serve as an advisory resource to emergency response personnel on issues relating to the Department's water distribution and sanitary collection systems. WSRT also serves as a resource for the local Emergency Management Agency under the National Incident Management System.

WSRT may be employed when:

- Firefighting activities at chemical facilities which threaten to wash chemicals into the sewer system;
- A broken pipeline threatening to entrain hazardous material into the sewer system;
- Unauthorized hazardous substances entering sewer systems through industrial discharges that are connected to the sewer
 - accidental spills,
 - industrial pretreatment facility malfunctions
 - intentional dumping
- Spillage caused by truck and rail accidents;
- Natural disasters which could potentially impact water distribution and/or sewer systems;
- Terrorist and other acts.
