- +1 253 215 8782 US (Tacoma)
- +1 346 248 7799 US (Houston)

Agenda

1. Welcome
2. Support & Compliance Review 2021/2022 – Montgomery County received virtual compliance request to be submitted by April 24, 2021. The completed review was submitted to the state on April 23, 2021. From June 10, 2021 to June 30, 2021 the state reviewed and requested clarification on the compliance report. The county received its confirmation letter August 18, 201 advising we passed. The 2022 audit will most likely be virtual.
3. T-Mobile Location Based Routing (LBR) – Currently T-Mobile is the only major retailer providing LBR. When the user has 4G or LTE service, their 911 call is routed to the PSAP based on location vs. cell tower location. This feature available and active for all PSAPs in Montgomery County.
4. Potential changes to OAC 5507/ORC 128 – Changes to the OAC were approved and will be official in 2022. The state will send out information to clarify the changes soon. They are adopting the NENA standard for call answer times. ORC 128 proposal will be presented to the current session at the state level but it was not discussed at the most recent ESINet meeting.
5. Recommendations for 9-1-1 Plan in 2022
 - a. Request from the 9-1-1 Planning Committee for methods for division of Wireless Government Assistance Funds with ORC 128 changes – i.e. there will no longer be a restriction on the number of PSAPs that can receive funding. They are currently using the 2010 census to determine the percentage of funding received. Suggestions are to base funding off population or 911 calls received. The drawback to basing funding off population is the census is only done every 10 years. If using 911 calls, it would be computed bi-annually based of the total 911 calls received (including wireless, wireline and VOIP). Chief

Protsman asked that the current stats be sent out to the committee (Derek will send this out before the end of the week)

- b. Meetings dates and minutes – The planning committee intends to post meeting dates and minutes on the county EMA web site. Looking to have each of the committee's meet twice a year.
- c. Other concerns – Deborah Wiley asked that the recommendations be sent to the group prior to submitting to the state, if possible.

6. Next Meeting Date and Adjournment – none set at this time. There will be follow up with direction from the 9-1-1 Planning Committee when it meets in January next year
