

# Britany

Born in 2006

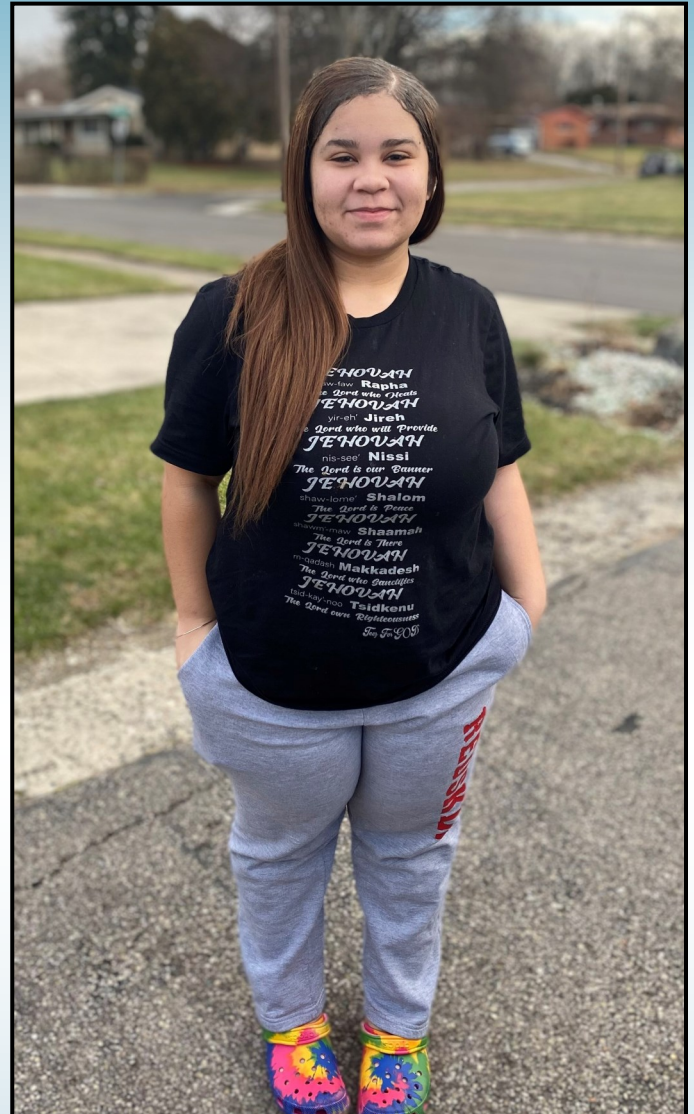

Britany describes herself as quiet, loving and affectionate teen. She loves to draw and perform through singing and dancing. She draws inspiration from her favorite singer — Beyonce.

Britany fantasizes about being a famous singer but realizes a more attainable career would be a talented hair stylist. Her favorite subject in school is English. She loves to read novels and fiction. Some she enjoys reading are “African Town”, “A Good Kind of Trouble” and “The Bully”.

Britany love springtime. She enjoys planting biennials and seeing flowers blooming because that always put a smile on her face.

She loves animals, especially small dogs to care for and cuddle. She is also interested in caring for horses and developing trust with the animals just like she hopes to do with a loving adoptive family.

Britany has mentioned she would love to be the only child. She also doesn't mind having older siblings, but not younger ones. Britany would love a family that is supportive, outgoing and fun loving.
