## MONTGOMERY COUNTY DEPARTMENT OF JOB AND FAMILY SERVICES

### ADULT PROTECTIVE SERVICES

Adult Protective Services (APS) investigates suspected abuse, neglect, self-neglect and exploitation of persons primarily age 60 and over. An assessment is done to determine what services are available to help the client. The goal is to help clients remain independent in their homes as long as possible by preventing, reducing or remedying conditions that may cause their endangerment.

Prior to a home visit, APS likes to know as much about the person and problem as possible. In addition to a description of the problem that requires our attention, please provide the following information about the client:

- Name, address, phone number
- Social Security number
- Date of birth
- Interested or involved family, friends, or caregivers

Routine referrals must be started within three working days and emergencies within 24 hours. Upon completing a 30-day investigation, caseworkers work with the client to decide if the case should remain open. If the caseworker determines the client lacks the capacity to make such a decision, the case can be kept open longer with the client's consent. Most cases are resolved in 60 days or less.

### **FRIENDS OF THE CASTLE, INC.**

The Friends of the Castle (or The Castle as it is known in our community) provide peer support to people living with all levels of mental illness -- from those most-severely disabled who enjoy the Social Club piece to the Recovery Center, where people work in small groups to improve their overall quality of life. In the Recovery Center, FOTC works with people to alter the dynamics of their lives so that instead of their illness controlling their life, these people learn to manage their illness, take control of their lives and grow into an improved quality of life. It is important to note that at the core of services provided at The Castle is peer support, informally in the Social Club and formally in the Recovery Center, where groups are facilitated by people who are in recovery themselves.
