What is child abuse and neglect?

Every month, Montgomery County Children Services receives more than 500 calls about suspected child abuse or neglect. The first step in helping children is to recognize the signs of maltreatment.

**Physical abuse** is a nonaccidental physical injury to a child caused by a parent, caregiver or other person responsible for a child.

**Neglect** is the failure of a parent or other caregiver to provide for a child’s basic needs physically, medically, educationally or emotionally.
