Joining forces with @OHCommunity, @Call_811PS, @Kettering_OH & Miami Valley Utility Safety Council to protect people & utilities! SafeDigMonth

Pinned Tweet
Did you know that every three minutes an underground utility is damaged by someone digging or excavating? One-third of these accidents could be prevented when people #Call811 before they dig.

Today, the Montgomery County Board of County Commissioners joined forces with the Ohio Utilities Protection Service, City of Kettering, Ohio - Government, Vectren and the Miami Valley Utility Safety Council to recognize April as Safe Dig Month.

"We hope that this event, and our official proclamation recognizing April as Safe Dig Month, will help raise awareness during the spring planting season, and encourage citizens and businesses to follow safe digging practices throughout the year," said Montgomery County Commissioner Judy Dodge. Thank you to all of our community partners and for everything you do to protect our citizens and our underground utilities!
