LGBTQ+

PRIDE PROVIDERS

Dear LGBTQ Patient,

As an LGBTQ individual, it's important to get care that's right for you from healthcare providers that have some understanding of your unique needs. The providers listed here have indicated on our provider survey that they meet criteria for basic cultural competence in treating LGBTQ patients. Public Health - Dayton & Montgomery County does not endorse any individual provider. This list of providers has been developed based on answers to a survey developed by our LGBTQ cultural competence team led by physicians and including nurses and several members of the LGBTQ community.

Physicians, dentists, and mental health providers Please take 5 - 10 minutes to complete this short survey about cultural competence in LGBTQ health care.
