FOR IMMEDIATE RELEASE

Englewood Woman Found Guilty of Involuntary Manslaughter

Defendant Provided Victim with Heroin

State v. Elyssa M. Davis, 2016-CR-0800

DAYTON, OH (11/16/2016) – Prosecutor Mat Heck, Jr. announced today that **ELYSSA M. DAVIS**, 33, of Englewood, has been found guilty as charged on charges relating to the overdose death of 48-year-old **Kelly L. Vogler**, of Butler Township.

On November 2, 2015, a friend of the victim called 911 after finding the victim deceased inside his home on Old Springfield Road in Butler Township.

The Coroner determined the cause of death to be acute drug intoxication from a mixture of Fentanyl, Alprazolam, and ethanol.

The defendant purchased the illegal drug mixture and assisted the victim with injecting the drugs. The defendant collapsed almost immediately. The defendant left the victim lying on the floor and left the residence without seeking any medical attention for the victim.

On March 31, 2016, the defendant was indicted on one count of Involuntary Manslaughter and one count of Corrupting Another with Drugs.

Today, she was found guilty as charged on both counts.

Prosecutor Heck continued, “Heroin and Fentanyl are insidious drugs and they cause an incredible number of overdose deaths in our community. When another person provides these drugs that result in an overdose death, it simply compounds the problem. Anyone who sells, gives or provides any illegal drug to another person who then dies from an overdose will be prosecuted and held accountable for the victim’s death. This defendant fled the residence and never even assisted the victim by calling 911.”

The defendant will be sentenced on December 8, 2016 at 10:00am.
