**FOR IMMEDIATE RELEASE**

---

**Englewood Woman Indicted for Involuntary Manslaughter**  
***Defendant Provided Victim with Heroin***  
***State v. Elyssa M. Davis, 2016-CR-0800***

**DAYTON, OH (03/28/2016)** – Prosecutor Mat Heck, Jr. announced today that 32-year-old **Elyssa M. Davis**, of Englewood, has been indicted on charges related to the overdose death of 48-year-old **Kelly L. Vogler**, of Butler Township.

On November 2, 2015, a friend of the victim called 911 after finding the victim deceased inside his home on Old Springfield Road in Butler Township.

The Coroner determined the cause of death to be acute drug intoxication from a mixture of Fentanyl, Alprazolam, and ethanol.

The defendant purchased the illegal drug mixture and assisted the victim with injecting the drugs. The defendant collapsed almost immediately. The defendant left the victim lying on the floor and left the residence without seeking any medical attention for the victim.

Today, the defendant was indicted on:

- One count of Involuntary Manslaughter
- One count of Corrupting Another with Drugs

Prosecutor Heck continued, “Heroin and Fentanyl are insidious drugs and they cause an incredible number of overdose deaths in our community. When another person provides these drugs that result in an overdose death, it simply compounds the problem. Anyone who sells, gives or provides any illegal drug to another person who then dies from an overdose will be prosecuted and held accountable for the victim’s death. This defendant fled the residence and never even assisted the victim by calling 911.”

The defendant is scheduled to be arraigned on March 31, 2016 at 8:30am.
