Dear Montgomery County Resident,

We are happy to present our 2009 adopted budget. Our budget focuses on our critical priorities:

- economic development
- regional collaboration
- human services
- quality of life

These priorities are addressed in the County Commissioners “Strategic Initiatives” document which is available at www.mcohio.org.

Ohio and Montgomery County have suffered job losses, home foreclosures, an unprecedented decline in tax revenues and local government resources. Since 2000, revenue has simply not kept up with inflation; however, the demand for services continues to grow—particularly in human services for our most vulnerable citizens and the criminal justice system.

We are committed to right-sizing county government while continuing to collaborate with our cities, townships and the private sector to build the foundation for a prosperous future economy for our region. To address these issues, a citizen-driven General Fund Financial Planning Committee provides guidance and recommendations to maintain future financial stability of the county General Fund from 2010 through 2014.

We are a community that is committed to innovation and a positive quality of life for our residents, and a government that is committed to quality service. This publication identifies our service areas, offices and agencies and discusses accomplishments and goals in each area.

We are proud of our tradition of teamwork, integrity and innovation. Many of our services have been nationally recognized for their excellence and have served as models for counties across the country. Through programs such as our combined human service levies, one-stop Job Center, innovative solid waste programs and our comprehensive economic development strategies, we are helping to build opportunities in Montgomery County.

Sincerely,

Judy Dodge

How does the County spend its annual budget?

Montgomery County provides law enforcement, judicial activities, social services, parks, recreation facilities, water and sewer services and community and economic development programs. The county budget has seven fund groups which designate money for specific purposes. They are the General Fund, Enterprise, Internal Service, Debt Service, Special Assessment, Special Revenue and Capital Funds. For example, the General Fund is the county’s primary operating fund and represents resources that the county may use in any way deemed appropriate by the County Commissioners. This fund is also one of the chief indicators of the county’s financial health. The General Fund budget for 2009 is $157.9 million. Special Revenue Funds have legal restrictions and must be used for a designated purpose. An example would be grant funds received from the federal or state governments such as the Community Development Block Grant Program.

Internal Service funds include services which provide support to general operations and which are supported by fees charged to county departments.

Enterprise funds include departments which operate almost exclusively on fees charged to the public or customers.

There are several ways in which one can look at how the county will spend its budget in 2009. In the next section, we will explain the budget by department, program area and category with the breakdown of expenses by each area.

Departments serve community needs by providing specific services, such as the Water Services Department, which provides clean drinking water and manages wastewater, and the Job and Family Services Department, which provides social services to Montgomery County citizens.

Some departments have several divisions or “sub-departments.” For example, Administrative Services is made up of the Animal Shelter, Risk Management, Learning and Performance, Human Resources, Purchasing, Central Services, Communications and Emergency Management. Juvenile Court operates the Juvenile Detention Center and a Residential Treatment Facility which house juvenile offenders.

“Non-Departmental” refers to line items in the General Fund budget which are not under the control of a particular department or elected official. These funds are managed by the Office of Management and Budget and include assessments (e.g., auditor charges), subsidies, and shared costs such as property and liability insurance. The following listing shows the departments within the county, the 2009 budget for each, and the number of people (full-time and part-time positions) within that department.

How Your Property Taxes Are Calculated:

\[
\begin{align*}
\text{APPRaised Value} & = \text{Estimated worth of your home} \\
\text{ASSEssed Value} & = 35.0\% \text{ of the Appraised Value} \\
\text{ONE MILl} & = $1.00 \text{ per every $1,000 of Assessed Value} \\
\text{TAX RATE} & = \text{The total millage in the county varies from 64.96 to 145.13 mills, depending on the city, township or school district in which you live. Of the total, Montgomery County receives 15.94 mills (excludes 1.80 mills for the countywide park district and 3.20 mills for the community college).}
\end{align*}
\]
At $508.1 million, Social Services is by far the county’s largest area, representing 52.0% of the county’s total budget.

Social Services include:

- Child welfare, including: investigation of child abuse and neglect cases, family stabilization, child placement and prevention services
- Services to the frail and elderly

**STATISTICS**

Montgomery County is one of only two counties in Ohio that fund health and human services through combined health and human service levies rather than single-purpose tax levies. These combined levies provide for more flexible funding. The Office of Family & Children First administers Human Service Levy funding, totaling $137.0 million in 2009. Additionally, the Family & Children First Council serves as the statutory lead collaborative for county-based health and human services planning.

Human Services Levy funds provide the local funding to complement state and federal funding for the following state mandated agencies.
