Military and Veteran Outreach

Recorder McClain renewed his partnership with the Region 4 Regional Inter-Service Family Assistance Committee (RISFAC) this July. RISFAC has meetings that include time for military units and organizations to discuss their struggles and successes. From there, all attending support organizations are able to identify where support is needed for military families. It has become a great networking and coordination opportunity to connect the military community with national, state, and local resources.

In the months of August and September, the Recorder’s Office will be supporting an initiative for homeless veterans by participating in a donation drive held by Montgomery County Business Services and the State of Ohio JFS - Disabled Veterans Outreach. Both departments will be using their respective locations as a centralized drop off facility for sample size toiletries that will be given to veterans at the Annual Stand Down for Veterans. We encourage everyone to donate towards this worthy cause.

School is Back in Session

Can you believe it’s already August? That means school will be back in session this month. Recorder McClain paid a visit to Fairview Elementary School last month as a guest reader for Freedom Schools. He was welcomed with high energy by over 50 students. The Freedom School Program is a six-week summer literacy and cultural enrichment program designed to serve children and youth in grades K-12 in communities where quality academic enrichment programming is limited, too expensive, or non-existent. Good Luck to all the students and parent preparing for the next academic school year.

Youth Works Once Again a Success

A special shot out to the two excellent young helpers the Recorder’s Office received through the Youth Works Program. Devin Hannah and Jermaine Juniel spent the summer learning the daily operations of the Recorder’s Office while lending a hand whenever necessary. Good Luck Devin and Jermaine during the next school year and we hope to see you next summer.
