For Immediate Release – June 12, 2020

Montgomery County, Ohio

Montgomery County Recorder’s Office Opens for In-Person Business

Effective Monday, June 15th the Montgomery County Recorder’s Office will be open to the general public. Following guidelines suggested by the Center for Disease Control and the Montgomery County Public Health Department, the office will open with the safety for its staff and customers as top priority.

Sneeze guards, additional hand sanitizing stations and social distancing markers have been installed as a safeguard against the spread of COVID-19. Those conducting business in the office will be greeted by staff members wearing face masks- however, it is not mandatory for the public to wear one.

“The safety of the citizens and my staff is and will remain my top priority. We could not predict how the COVID-19 pandemic would affect our community, but we can determine how we respond.” states Recorder McClain. “My office will respond with safety measures which ensure customer satisfaction and efficiency focused on keeping our local real estate market strong.”

While the primary function of the Montgomery County Recorder's Office is the handling of ownership documents pertaining to real estate, the office also issues complimentary ID Cards to veterans who have been honorably discharged. This service will also be available as the Recorder’s Office opens on June 15th.
