Water/Sewer Connection and Billing Application

Water/Sewer SERVICE LOCATION INFORMATION

Service Address _____

Lot No. _____ Subdivision _____

City _____ Zip Code _____

Parcel ID _____

Is this location already a MCWS water customer? Yes No

Is this location already a MCWS sewer customer? Yes No

REQUESTING THE FOLLOWING SERVICE(S) FOR THIS PROPERTY
Please choose at least one or more items below

Domestic Water Meter Size: _____

Montgomery County Sanitary Sewer Service: _____

Irrigation Meter Size: _____

Fire Line Detector Assembly Size: _____

Is this new construction replacing an existing structure?
Yes No

Does the property have or propose to have a private water well?
Yes No

If property has an existing well, will it be abandoned?
Yes No

***If there is a well, the public water service must be protected by a reduced pressure zone backflow preventer. A physical separation shall be maintained between the public water supply and the well. Service will not be activated until the facility has the proper backflow prevention device installed or the well abandoned.

***NOTES

1. The domestic indirect connection fees and the base quarterly charge are based on the meter size. Connection fee for fire protection is based on the detector assembly size.
2. Most single-family residences use a 5/8" meter, which has a maximum capacity of 20 gallons per minute (gpm).
